TESTIMONIALS

Romoland School District

Romoland School District has used digiCOACH to monitor the implementation of multiple initiatives in the classroom. digiCOACH is our main data gathering tool for monitoring the implementation of Common Core Standards Units of Study in both English Language Arts and Math, Designated English Language Development and Integrated English Language Development, and instructional methods offered to teachers through professional development. Our outcomes show success. Romoland School District has had the most growth in Riverside County of students meeting or exceeding standard on the CAASPP in both English Language Arts and Math over the past four years. digiCOACH has been a key tool in our system of success for students.

- Trevor Painton, Superintendent

Oxnard Union High School District

What an amazing tool! As an AVID® District Director of 6 large comprehensive high schools, digiCOACH allows me to observe and communicate with teachers and view collected data and reports that can drive instruction, both in the AVID® elective and for WICOR® school-wide. digiCOACH's ease of use supports all observers and the sophistication of the data reports helps our team identify our areas of strength and our areas for growth. I can't imagine observing and coaching without digiCOACH.

- Lupe Zamora, AVID® District Director

We are able to give quality instructional feedback at the site level, which benefits our educators tremendously. Students, especially those who typically form strong bonds with principals, also recognize and appreciate the increased administrator visibility in classrooms.

- Dr. Gabe Soumakian
Former Superintendent

We were looking for an app that we could use to speed up our process and reach more classrooms as the paperwork of a walkthrough quickly piles up. Using digiCOACH has completely reinvented our process as the product is simple to use and level of feedback is higher than ever before.

- Scott Worthing
Principal, King-Chavez Prep

I appreciate that I can provide meaningful positive feedback on a regular basis for teachers. The program helps to track feedback and provides a broader range of feedback.

- Mischelle Bain
Principal, Lois Allen Elem.
